Details Reveal Ingenuity

Seamless Splicing Process

Seamless integrated splicing process, overall splicing, not easy to crack.

430 Stainless Steel Base

430 base and pillar surface sanded cover, not easy to rust.

Non-slip Rubber Mat

Anti-slip rubber pad design at the bottom, stable adsorption and not easy to move.

Double Side Magnetic

Large capacity, raw and cooked knives are placed separately.

Aesthetics Come First

Outstanding appearance on the outside, exquisite craftsmanship on the inside; simplicity but not simple, modern kitchens need an exquisite solid wood knife holder.
